DEVELOPMENT & DESIGN EXPERIENCE

For Sale By Owner Inc., Remote — *Web Developer & Designer*

September 2021 - October 2021 (Short Term Contract)

- Used PHP, JavaScript, jQuery, CSS & MySQL to maintain, update, and add new features to the company website along with senior web developer/designer.
- Created new layouts, designs and graphics for the website with Figma and Affinity software.
- Demonstrated ability to grasp existing code bases with little introduction or guidance, worked on a project-based schedule.

Helcim, Calgary, AB & Remote — *Junior Software Developer*

April 2021 - July 2021

- Worked with PHP, JavaScript and Vue within a Model-View-Controller architecture code base to develop and maintain commerce systems used by external clients.
- Used SQL databases and dev servers to build and test content.
- Responded to feature requests and bugs submitted internally on Gitlab DevOps.
- Participated in daily standup and retrospective meetings to align goals with a dynamic and fast moving team.

OTHER EXPERIENCE

Franworks, Calgary, AB & Remote — *HR & Compliance Administrator, Office Manager*

March 2018 - November 2020

- Learned new systems without guidance, coordinated with different companies, utilized data analysis to improve processes.
- Oversaw collection, editing and auditing of databases and legal documents.
- Developed leadership skills by handling all licensing and Worker's Compensation accounts in North America; coordinating with governmental agencies, remote representatives.
- Multi-tasked by holding Office Manager position concurrently, wherein demonstrated ability to handle multiple department's needs, represent a brand to external clients, and take leadership roles for neglected projects.
